An HSA is a tax-advantaged savings account that can be used to pay for qualified medical expenses, including doctor's bills, prescriptions, dental care, contacts and eyeglasses, bandages, X-rays, and more.

- No federal income tax. You aren't taxed on money you put into it, or on the interest you earn, in an HSA account. You also don't pay tax on withdrawals for qualified medical expenses.
- No expiration date on funds. Your HSA contributions don't expire. The money stays in the HSA until you use it.
- Possible use for spouse and dependents. You can use your HSA to pay for qualified medical expenses for your spouse and dependents, even if your HSA-eligible plan doesn't cover them.
- HSA doesn't go away if job changes. You can keep your HSA, even if you change employers or retire.
